THE PERSPECTIVE OF PROJECTS

University College LOGOS announces that its efforts to actively engage in international research and development projects in implementation of its internationalization objectives has been successful. As a result, University College LOGOS is leading partner in a project and project partner in two others. These projects' short descriptions are provided below.

**A. ERASMUS+ KA-2 CAPACITY BUILDING IN HIGHER EDUCATION**

**1. ERASMUS-EDU-2022-CBHE Project Nr. 101083070 – ROAMING**

The project, titled "ROAMING - Strengthening International Staff&Student Mobility Offices in the West Balkans," aims at reducing the unbalanced international mobility uptake of remote and less privileged HEIs in the West Balkans by strengthening the capacity of their International Relations Offices. To this end, we have established a consortium with a mix of experienced and inexperienced Higher Education Institutions from the West Balkans in matters related to ERASMUS+ from Albania, Kosovo\* and Montenegro, willing to cooperate with an experienced university from an ERASMUS member country and another university from an associated country, North Macedonia.

Consortium Membership:

- 1.1.University College LOGOS, Albania – Leader.
- 1.2.POLIS University, Albania – Consortium partner.
- 1.3.University of Western Macedonia, Greece – Consortium partner.
- 1.4.International University of Struga, North Macedonia – Consortium partner.
- 1.5.International Business College, Mitrovica, Kosovo\* – Consortium partner.
- 1.6.R.I.T – Kosovo\* (American University of Kosovo) – Consortium partner.
- 1.7.Univerzitet Mediteran Podgorica, Montenegro – Consortium partner.
- 1.8.Centre "ERASMUS Students Network," Albania – Associated partner.

Project Duration: 24 months.

**2. ERASMUS-EDU-2022-CBHE Project Nr. 101083006 – MAGNET**

University Pedagogy, mostly enhanced through the operation of Centres for Teaching and Learning (CTL), is a main pillar for the implementation of the European Higher Education Area. The MAGNET project aims to develop a network for University Pedagogy in the West Balkans States, through know-how transfer from countries that have CTLs under operation to all partner countries. Main objectives include the know-how transfer, the foundation of CTLs, the production of educational material and the creation of a sustainable network BalkaNetUP (Balkan Network for University Pedagogy).

### **Activities**

1. Research and Needs Analysis of the teaching staff of all participating Higher Education Institutes, to bring out their teaching needs.
2. Actions to be taken at an institutional and national level leading to the establishment of CTLs.
3. The launching of BalkaNetUP for all HEI, bringing together academic communities from the West Balkan area.
4. The design and function of an e-platform to support BalkaNetUP, for communication and sharing of all deliverables of MAGNET project.
5. Development of training courses based on the Needs Analysis and an intensive literature review, in the form of pilot, field-focused, modules/courses with assigned ECTS that will be launched face-to-face or via eLearning methods.
6. The co-working of partners via webinars, face-to-face meetings and conferences scheduled in the form of workshops for all partners.

### **Results**

The expected results of MAGNET Project are:

- The support for the implementation of modern, innovative, transformative, student-centered instructional strategies in HEI in the West Balkans
- The formation of the BalkaNetUP via the integration of knowledge, good practices, shared experience for the academic educational processes
- The establishment of CTLs in HEIs
- The launching of an e-Net to support BalkaNetUP
- The upgrading of teaching and learning methods that lead to better students' outcomes

### Consortium Membership:

1. Democritus University of Thrace, Greece – project leader.
2. University of Patras, Greece – project partner.

3. University College LOGOS, Albania – project partner.
4. "Aleksandër Moisiu" University, Durrës – project partner.
5. University of Arts, Belgrade, Serbia – project partner.
6. University Donja Gorica, Podgorica, Montenegro – project partner.
7. University of Prishtina, Kosovo\* – project partner.
8. International Business College, Mitrovica, Kosovo\* – project partner.
9. University of Banja Luka, Bosnia and Herzegovina – project partner.
10. University of Sarajevo, Bosnia and Herzegovina – project partner.
11. South-East European University, Tetovo, North Macedonia – project partner.
12. Medical University of Plovdiv, Bulgaria – project partner.

Project Duration: 36 months.

### **3. KAVA 21383 and HEI INITIATIVE: PROJECT 1257 OASIS**

OASIS is a collaborative initiative between higher education institutions (HEIs), research centres, a pan-EU network of institutions, and enterprises. OASIS aims to develop and share support capabilities in the area of open science (OS) to drive the EU's digital transformation and sustainable development. The project facilitates the adoption of OS technologies in education through practical applications, training, and mentoring activities for the management of real educational and labour-oriented problems with an aim to increase openness in intellectual property.

The OASIS project has the following main objectives:

- develop and strengthen technology transfer processes;
- enhance entrepreneurial education with OS technologies;
- strengthen OS technology and knowledge transfer partnerships; empower the next generation of innovators;
- improve the impact framework of OS technology transfer and entre/intra-preneurial education for sustainability;
- strengthen the entrepreneurial and innovation capacity of HEIs towards a long-term innovation vision action plan (IVAP) implementation commitment;
- transform students and create professionals able to tackle labour challenges and needs

Consortium Membership:

1. University of the Peloponnese, Greece – project leader.
2. University College Logos
3. Università degli Studi di Camerino
